

HearYourWay™

Cochlear™ Nucleus® 7 Sound Processor

First for iPhone. First for Android™.
The only cochlear implant sound processor
you can control directly from your smartphone^{1,2}

Made for
iPhone | iPad | iPod

Hear now. And always

Introducing the world's first and only cochlear implant sound processor you can control from your smartphone^{1,2}

With the Nucleus[®] 7 Sound Processor, you can take control of your hearing and connect with the technology and people you love like never before.

Our smallest and lightest³ behind-the-ear hearing solution combines comfort and wearability with proven hearing performance, so you can hear your best anywhere, any time.⁴

NUCLEUS[®] 7

ConnectYourWay[™]

First for iPhone. First for Android[™].^{1,2}

WearYourWay[™]

Small, light³ and comfortable.

HearYourWay[™]

Innovations to hear your best.⁴

CareYourWay[™]

Support for a lifetime.

Take control of your hearing journey like never before.

With the Nucleus Smart App, for the first time ever you can monitor and adjust your settings, view personalised hearing information and even locate a missing processor, all from the convenience of your compatible Apple or Android device.*

Directly stream calls and entertainment

Thanks to Made for iPhone compatibility, you can stream calls, video, music and entertainment directly to your Nucleus 7 Sound Processor from any compatible Apple device.

If you have a cochlear implant and a compatible hearing aid*, you can take advantage of our smart bimodal solution which enables you to stream directly to both ears for a richer hearing experience.

With the Nucleus 7 Sound Processor you can also stay connected to friends and family as you stream calls and entertainment from any Android device using the Cochlear Wireless Phone Clip.

Take control with the Nucleus Smart App

**Control and monitor
your sound processor**

**View your personalised
hearing information**

**Locate a lost Nucleus 7
Sound Processor**

** Refer to back page for detailed device compatibility information.

“Connectivity with iPhone
makes usage very easy and
controlling and adjusting
much easier”

Nucleus 7 clinical trial participant⁴

ConnectYourWay™

“[Thanks to the Mini
Microphone] he went
to the top of his class.”

Kirsten B, mother of Quinten,
Cochlear Mini Microphone user

Experience True Wireless™ freedom

Cochlear's True Wireless devices can help you watch TV without captions, talk on the phone, listen clearly in meetings and actively participate in classroom discussions.

Cochlear Wireless Mini Microphone 2+

- Designed for peak performance.
- Provides complete connectivity (FM, Telecoil, line-in jack).
- Perfect for communicating one-on-one and in groups.
- Ideal for work or school.

Cochlear Wireless Phone Clip

- Designed for use with smartphones.
- Answer calls at the push of a button.
- Listen to your playlists anytime, anywhere.
- Easy-to-use connectivity.

Cochlear Wireless TV Streamer

- Streams the TV audio directly to your sound processor.
- Makes blaring the TV a thing of the past.
- Allows you to still take part in the family conversation.
- Easy-to-use connectivity.

ConnectYourWay™

The Nucleus 7 Sound Processor is the smallest and lightest¹ behind-the-ear sound processor with up to 50% more battery life.⁵

Being 25% smaller and 24% lighter than its predecessor³, the Nucleus 7 Sound Processor provides a more comfortable experience for even the smallest ears. And thanks to new chip technology, you can benefit from up to 50% longer battery life⁵ and enjoy a longer active day.

Make a splash with Aqua+

So you can enjoy your favourite water activities with confidence, the Nucleus 7 Sound Processor is splashproof.⁶ And when worn with Aqua+ it becomes waterproof with the highest rating possible (IP68).⁷

WearYourWay™

You deserve to hear your best.
Cochlear leads the way with innovations
to improve your hearing performance,
now and for a lifetime.

The Nucleus 7 Sound Processor features SmartSound® iQ with SCAN, which is designed to automatically make hundreds of decisions to optimise your hearing performance every day, so that you don't have to.⁸

Our dual microphone technology helps to filter out background noise so you can hear more of what you want, especially when it's noisy.⁹

Designed for particularly challenging listening environments, ForwardFocus is an additional control feature exclusively available for the Nucleus 7 Sound Processor. ForwardFocus further reduces noise coming from behind you, so you can more easily enjoy face-to-face conversation.

SmartSound iQ with SCAN technology:

Speech in noise: Have a conversation in noisy surroundings like a city street or a busy café.

Speech: Helps you hear speech more clearly, so you won't miss out on important information.

Noise: Hear comfortably in noisy situations, such as at a sports game, or while at the train station or airport.

Wind: Hear comfortably in windy conditions.

Quiet: Appreciate soft sounds in quiet environments.

Music: Enjoy listening to the music you love.

“The sound appears to be clearer, and I am able to understand better.”

Clinical trial participant²

HearYourWay™

Combine two proven technologies to get back the sounds you've been missing.

Hybrid™ Hearing

The Nucleus 7 Sound Processor is also Hybrid™ ready, which means you can combine the benefits of your natural hearing with your cochlear implant to achieve even better hearing performance in difficult situations.¹⁰

**Nucleus 7 Sound Processor
in Hybrid mode**

“I can now hear my
husband’s humorous
‘throw away line’ and we
have a good laugh.”

Clinical trial participant⁴

HearYourWay™

The Cochlear difference: A+ HEARING

A+ HEARING is only possible when you combine the four pillars of hearing performance; perfected over our many years as the global market leader. This knowledge is further strengthened by the experience shared by more than 450,000 Cochlear implant recipients we have treated since inventing the world's first cochlear implant nearly 40 years ago.

FOUR PILLARS OF HEARING PERFORMANCE

We're here for you now, and always.

CONTACT US

We understand that choosing a cochlear implant system is a decision for life. We know you will have many more questions and you are welcome to get in touch. No questions are too big or small. It is what we are here for now, and always.

CareYourWay™

Hear now. And always

As the global leader in implantable hearing solutions, Cochlear is dedicated to bringing the gift of sound to people with moderate to profound hearing loss. We have helped over 450,000 people of all ages live full and active lives by reconnecting them with family, friends and community.

We aim to give our recipients the best lifelong hearing experience and access to innovative future technologies. For our professional partners, we offer the industry's largest clinical, research and support networks.

That's why more people choose Cochlear than any other hearing implant company.
